

Hazardous Waste Report LQG Training Q&A

Division of Waste and Hazardous Substances (WHS), Compliance and Permitting Section (CAPS)

This document provides an overview of the questions and answers provided during the Q&A portion of the Hazardous Waste Report training held by CAPS on January 11, 2022. This document is not intended to be a verbatim transcript.

How Do You Report Pharmaceutical Waste on the Annual Report?

LQGs that are Healthcare Facilities (HCFs), as defined in Delaware's *Regulations Governing Hazardous Waste*, Section 266 Subpart P, do not report pharmaceutical waste in their Hazardous Waste Report. LQGs that are not HCFs must still report hazardous waste pharmaceuticals as they would any other hazardous waste.

Do We Use the Biennial Report Form to Complete the 2021 Report?

When Submitting a Hazardous Waste Report through RCRAInfo, the Biennial Report Module must be used for reports that cover odd numbered years (e.g., 2021). While the Annual Report Module always remains open, it must only be used to submit Hazardous Waste Reports that cover even numbered years (e.g., 2022).

Additional Resources

Additional resources can be found CAPS webpage de.gov/hazardouswaste. If you have questions that cannot be answered by these resources, please contact Alea Gonzalez at alea.gonzalez@delaware or by calling 302-739-9403.

This summary is provided as a courtesy to businesses. It is not intended as a substitute for 7 DE Admin. Code 1302, Delaware's *Regulations Governing Hazardous Waste* (DRGHW), Parts 260-266, 268, 273 and 279.
